A Card.

DOCTORS BRUNOT & WARD respectfully tender their thanks to the citizens of Pittsburgh and its vicinity, for past favours, and solicit a continuance of their patronage.

The number of small accounts which have been accumulating on their books for several years past, has became so great as to render a general and immediate settlement absolutely necessary. They therefore give notice that on the 15th February next, all their accounts of more than six months standing, will be left with a magistrate for collection.

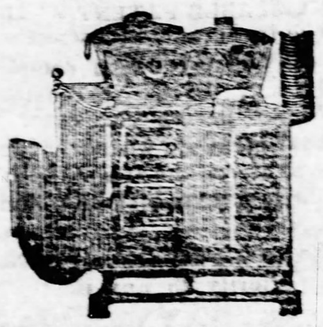
Charles Postly's



PATENT COOKING STOVE.

H. MILLER having purchased of C. Postly of New York, the Patent Right of a Domestic Cooking & Parlour STOVE, has the pleasure of offering to the public for their patronage, the above stove, which for convenience, saving of labour and fuel, far surpasses any heretofore invented. It is a well known fact, that all those in use, are only calculated for the kitchen, for baking or retaining warmth in the room. The stove here offered to the public, is not only calculated for the kitchen for the purposes of extensive cooking, but is a handsome piece of furniture, for the sitting room when not wanted for the above purposes, and when cooking is done, by removing the boilers &c. can have a pleasant fire to sit by. In large cities, as well as in the country, many persons of comfortable circumstances prefer doing the cooking for the family in the same room they reside in for the winter season, as it supercedes the necessity of an extra fire. To such, this possesses every advantage, being an open and close stove combined, in which may be burned coal or wood, and can be placed in any part of the house where fire is wanted. The above stove has ovens for baking, and other conveniences for roasting or boiling, it also possesses the utility of boiling water in a wooden vessel, on the outside, for washing and other purposes. There are steamers attached to the boilers for cooking vegetables by the steam arising from the water while the meat is boiling.

The above stoves have been in operation in New-York for three years past, and their utility being so well known, they met with great approbation. The fixtures to some amount to eleven, seven of which may be in use at one and the same time, the largest size is calculated to cook a dinner for seventy or eighty persons.

Likewise Cast and sheet-iron Stoves, suitable for offices, stores, or bed-rooms, to which boilers may be attached if wanted.

A constant supply of the above stoves will be kept furnished in the most complete manner,

Pitttsburgh Gazette.

TUESDAY MORNING, JANUARY 19, 1819.

The state Treasurer has made a communication to both Houses of the Legislature, relative to a controversy with one of the banks chartered under the act of 25th of March, 1814. The following is his letter.

Treasury Office of Pennsylvania,
January 5th, 1819.

To the Senate and House of Representatives of the Commonwealth of Pennsylvania.

In transacting the business of this office, a controversy has arisen with one of the Banks chartered under the act of 25th March 1814.

The President, &c. of the Bank tendered at this office, as a payment of the tax due to the State on the dividends declared within the last year, a variety of notes issued by other banks chartered under the same law, a great portion in notes of Banks, which have ceased to redeem their paper, and consequently refused at the Treasury from every description of debtors. It was contended on the part of the bank, that, "the Treasurer was bound by law to receive in payment from the banks, the notes issued by any & every bank chartered under the act of 1814"

I objected to receive the paper offered alleging, that the spirit and meaning, as well as the fair and equitable construction of the 8th section of the said act was, that the State Treasurer should receive in payment of debts from a bank to the State, the notes of the respective bank offering the payment.

If the construction of the law assumed by the officers of the bank prevails, the revenue of the State may and no doubt will be affected to the amount of twenty-five or thirty thousand dollars annually, this consideration will I trust warrant the appeal to the Legislature, as the only tribunal competent to decide thereon.

It is of importance to the bank to have this question decided as soon as practicable, for the time has now arrived when the Treasurer is bound by law to publish such banks as have not complied with the provisions contained in the 10th section of said act, and if I have been in error, it would be unjust that the bank in question should suffer thereby.

The accompanying papers will shew, that the officers of the Bank had full and timely notice that the notes offered by them were refused.

RICH'D. M. CRAIN.

Mr. Crain's communication together with his letter to the cashier of the Farmer's Bank of Lancaster, and the reply of the cashier, was referred in the lower House to the committee on banks.

The following petitions have been presented in the House of Representatives of this state:—

Mr. Coulter—Citizens of Westmoreland county, for further aid to the western turnpike road, southern route. Committee on roads, &c.

Mr. Forward—of about two hundred merchants, manufacturers, and others, of Pittsburgh, praying, that the western turnpike road may be completed, & made free road. Committee on roads, &c.

Mr. Reed—For aid to the Washington and Pittsburgh turnpike road company. Committee on roads, &c.

Mr. Coulter—Aid to the Greensburgh and Stoystown turnpike road company; stating that the road is finished within 100 rods, and that they are in debt 50,000 dollars beyond their funds. Committee on roads and inland navigation.

Mr. Forward—Inhabitants of Pittsburgh, for an appropriation to aid in improving the navigation of the Ohio, from Pittsburgh to the state line.

Mr. Coulter—Four petitions of citizens of the western and northern parts of the state, for aid to complete the western turnpike on the northern route.—Committee on roads, &c.

Mr. Coulter—Aid to the New Alexandria and Conemaugh turnpike road. To the same committee.

Mr. Forward—That the appropriation for a bridge over the Allegheny, at Pittsburgh, may be paid to the company, sooner than is mentioned in the former act. Committee on roads and inland navigation.

Mr. Dearth reported a bill, erecting parts of Fayette and Washington counties, into a new county, to be called Monroe.

From the London Jewish Expositor.

SPECIMEN OF WELCH PREACHING.

At a meeting of ministers at Bristol, the Reverend Mr. ——, invited several of his brethren to sup with him; among them was the minister officiating at the Welch meeting house in that city. He was an entire stranger to all the company, and silently attentive to the general conversation of his brethren. The subject on which they were discoursing, was the different strains of public preaching. When several had given their opinion, and had mentioned some individuals as good preachers, and such as were models as to style of composition, &c. Mr. —— turned to the Welch stranger, and solicited *his* opinion. He said he felt it to be a *privilege* to be *silent* when such men were *discoursing;* but that he felt it a *duty* to comply with this request. 'But,' said he, 'if I must give my opinion, I should say that ye have no good preachers in England.' 'No?' said Mr. L. 'No,' said he; 'that is, I mean no such preachers as we have in the principality.' 'I know,' said Mr. L. 'you are famous for jumping in Wales, but that is not owing, I suppose, so much to the strain of preaching which the people hear, as to the enthusiasm of their characters.' 'Indeed,' said the Welshman, '*you* would jump too, if you heard and understood such preaching.' 'Why,' said Mr. L. "do you not think I could make them jump, if I were to preach to them?' 'You make them jump!' exclaimed the Welchman, 'you make them jump! A Welchman would set fire to the world, while you were lighting your match.' The whole company became very much interested in this new turn of the subject, and unanimously requested the good man to give them some specimen of the style and manner of preaching in the principality. 'Specimen,' said he, 'I cannot give you; if John Elias was here, he would give you a specimen *indeed*. Oh! John Elias is a great preacher.' 'Well,' said the company, 'give us something that you have heard from him.' 'Oh no!' said he, 'I cannot do justice to it—beside, do you understand the Welch language?' They said 'no not so as to follow a discourse.'—'Then' said he 'it is impossible for ye to understand, if I were to give you a specimen.' 'But,' said they, 'cannot you put it into English?' 'Oh!' said he, 'your poor meagre language would spoil it; it is not capable of expressing those ideas which a Welchman can conceive; I cannot give you a specimen in English without spoiling it.' The interest of the company was increased, and nothing would do but something of a specimen, while they promised to make every allowance for the language. 'Well,' said the Welchman 'if you must have a piece, I must try, but I don't know what to give you. I do not recollect a piece of John Elias; he is our best preacher. I must think a little: well, I recollect a piece of Christmas Evans. Christmas Evans was a good preacher, and I heard him a little time ago, at an association of ministers. He was preaching on the depravity of man by sin—of his recovery by the death of Christ; and he said 'brethren, if I were to represent to you in a figure, the condition of man as a sinner, and the means of his recovery by the cross of Jesus Christ, I should represent it somewhat in this way. Suppose a large grave yard surrounded by a high wall, with only one entrance which is by a large iron gate, which is *fast bolted;* within these walls are thousands and tens of thousands of human beings, of all ages and of all classes, by one epidemick disease, bending to the grave—the grave yawns to swallow them, and they must all die—there is no balm to relieve them—no physician there—they *must* perish. This is the condition of man as a sinner—all, all have sinned, and the soul that sinneth, it shall die. While man was in this deplorable state, *mercy*, the darling attribute of Deity, came down and stood at the gate, looking at the scene and wept over it, exclaiming, 'Oh! that I might enter; I would bind up their wounds—I would relieve their sorrows—I would save their souls!' While mercy stood weeping at the gate, an embassy of angels, commissioned from the court of heaven to some other world, passing over, paused at the sight, and heaven forgave that pause: and seeing mercy standing there, they cried, 'mercy, mercy, can you not enter? Can you look upon this scene and not pity? Can you pity and not relieve?' Mercy replied, 'I *can* see;' and in her tears added 'I can pity, but I cannot relieve.' 'Why can you not enter?' 'Oh!' said mercy, 'justice has barred the gate against me, and I cannot, must not unbar it.' At this moment, justice himself appeared, as it were to watch the gate.—The angels inquired of him, 'why will you not let mercy in?' Justice replied. 'my law is broken, and it must be honoured. Die *they* or *justice* must!' At this, there appeared a form among the angelick band, like unto the Son of God, who, addressing himself to justice, said, 'what are thy demands?' Justice replied, 'my terms are stern and rigid. I must have sickness for their health—I must have ignominy for their honour—I must have death for life.' '*Without shedding of blood there is no remission.*' 'Justice,' said the Son of God, '*I accept thy terms.* On me be this wrong, and let mercy enter.' 'When said justice, 'will you perform this promise?' Jesus replied, 'four thousand years hence, upon the hill of Calvary, without the gates of Jerusalem, I will perform it in my own person.' The deed was prepared and signed in the presence of the angels of God. Justice was satisfied, and mercy entered preaching *salvation* in the name of Jesus. The deed was committed to the patriarchs, by them to the kings of Israel and the prophets; by them it was preserved till Daniel's seventy weeks were accomplished. Then, at the appointed time, justice appeared on the hill of Calvary, and mercy presented to him the important deed. 'Where,' said justice, 'is the Son of God?' Mercy answered, 'behold him at the bottom of the hill, bearing his own cross,' and then he departed, and stood aloof at the hour of trial. Jesus ascended the hill, while in his train followed his weeping church. Justice immediately presented him with the deed, saying, 'This is the day when this bond is to be executed.' When he received it, did he tear it in pieces, and give it to the winds of heaven? No, he nailed it to the cross, exclaiming, 'it is finished.' Justice called on holy fire to come down and consume the sacrifice. Holy fire descended—it swallowed his humanity, but when it touched his deity it expired! and there was darkness over the whole heavens: but 'glory to God in the highest, on earth peace, good-will to men.'

'This,' said the Welchman, 'this is but a specimen of Christmas Evans.'

GREAT HUNT.

A large number of the inhabitants from the towns of Nelson, Hiram, Mantua, Middletown, Ravenna, Charlestown, Sharon, and their vicinity, surrounded on the 4th inst. the town of Rootstown, advanced to a square of about 160 acres previously laid out, and killed 20 Bears and 26 Deer, besides other small game, such as turkeys, cats, &c.

NEW-YORK, January 8.

ALTERED BANK NOTES.

It is stated in the Mercantile Advertiser of this morning, that twenty two bills of the *Bank of America*, purporting to be of 100 dollars each, were deposited at the Mechanic's Bank on Saturday which on being carried to the Bank of America, yesterday, were found to be all altered from *one dollar* bills. They are so well executed, that they were not suspected at the Mechanic's Bank.

Loss of the Schooner Magnificent.

Captain Doe, of the schr. Meva-Doe, who arrived here this morning, in 8 days from Washington. N. C. informs us, that the schr. Magnificent, Capt. Ashby, from New-York, bound to Edenton, was capsized in a heavy gale, on the 2d of December, while scudding under a close reefed foresail. The vessel sunk and every person on board perished. This information was communicated to Captain Doe, by Captain Huggart, of the schr. Patriot, who was then in company, and bound to the same port, who was unable to render any assistance.

"OLD IRON SIDES."

BOSTON, January 4.

We understand an examination has lately been made of the decks of the frigate Constitution, now lying at the Navy Yard, and that they were found, after the most faithful search, to be as firm and sound, as when first laid. This fact presents a high eulogium on the skill and integrity of those, who have been engaged in the United States ship building at this place.

TRADE OF BOSTON.

During the year 1818, there were entered at the Custom House in Boston 855 vessels from foreign ports, and 1831 from American ports. The number of clearances, in the same year was, for foreign ports 574, for American ports 2082. Total of entries 2686—total of clearances 2656. Of the foreign clearances, 59 were for ports beyond the Cape of Good Hope.

WOMEN.

It appears from Seneca, that the ancient Egyptians, in the disposition which they allotted to the genders of their nouns, paid a singular and a delicate compliment to the fair sex. In the four elements, beginning with water, they assigned the ocean as a rough boisterous existence, to the male sex; but streams and fountains they left to the more gentle females. As to earth, they made rocks and stones male; but arable and meadow land female. Air they divided thus: to the masculine gender, rough wind and hurricanes of every kind; to the female, the sky and the zephyrs. Fires, when of a consuming nature, they made male; but artificial and harmless flames they consigned to the feminine class. Not so the Romans. They made a most aukward, and, in some instances, peculiarly ridiculous distribution of the genders. Indeed, even the poets of that celebrated nation seem to have been little disposed to show any species of gallantry to a sex, an attachment to which, probably, caused the rise and existence of their art.

In West Greenland, the women are subjected to carry heavy loads, even from their youngest years: their dress is chiefly skins; and they perform the offices of butcher, currier, cook; make also cloths, shoes, boots, build & repair their houses and tents, as far as regards the masonry: the men only doing the carpenter's work.

In Sweden, the women follow the plough, row on the water, serve the bricklayers and do all the common drudgeries of husbandry.

The women of Poland have a watchful eye over their daughters, and in the district of Samogitia particularly, make them wear little bells before and behind, to give notice where they are, and what they are about.

GOOD ADVICE.

Quit your pillow, and go about your business, if you have any—it is the first injunction; if not, seek some. Let the sun's beams shine on your head in the morning, and you shall not want a good hat so defend you against its scorching rays at noon.—Earn your breakfast before you eat it, and the sheriff shall not deprive you of your supper. Pursue your calling with diligence, and your creditor shall not interrupt you. Be temperate, and your physician shall look in vain for your name on his day book.

INVIOLABLE PATENT ALARM LOCK.

The inventor after a series of attempts, has fully succeeded in completing a patent Lock. Such is its construction, that while no person can enter the house without creating, whenever desirable, a general alarm, the arts of the evening and midnight thief to pick it, would be found perfectly useless. Such as have inspected the lock, unhesitatingly acknowledge its superiority to any in common use. The simplicity of its structure is such, that it will endure for many years, and can scarce ever need repairing. A model of the lock may be seen at No. 85, South Front Street, where will be received and executed, orders, during the inventor's absence for a few months to New-York.

The above lock will be exhibited by the inventor, through the city, for a few days, and on the evenings of Friday, Monday and Tuesday, at the above place *Phil. Gaz.*

PITTSBURGH.

Tuesday, January 19, 1819

Koch and Coll, two of the persons mentioned in our last, as having been taken under a suspicion of passing counterfeit money, have been tried at the Mayor's Court, and convicted. Sentence is not yet passed. The following is a correct statement of the counterfeit bills found in their possession.

Marine Bank of Baltimore, 5 dollar notes,	tot.	2620
Farmers Bank of Delaware,	3	704
Farmers Bank of Bucks c'y	10	210
Bank of Auburn,	10	1000
Bank of Philadelphia,	1	126

The altered notes were mentioned in our last; no others have been found on them.

To the Editors of the Pittsburgh Gazette.

Gentlemen,

As numerous false reports, and 'misrepresentations have been propagated relative to the English settlement in the state of Illinois, by publishing the enclosed letter recently received from Mr. Birkbeck, you will gratify all those who feel an interest in its prosperity, and oblige

Gentlemen, your ob't. servant,

B. BAKEWELL.

Pittsburgh, Jan. 15th, 1819.

English Prairie, Dec. 14th, 1818.

Dear Sir,

The interest for this colony expressed by yourself, and many other respectable individuals, makes ample amends to my own feelings for the petty hostilities practised against us; but on public grounds I gladly avail myself of the opportunity your letter affords me of contradicting a few of the false reports which have been circulated to our disadvantage. Yours is not the first intimation we have received of a design as wicked as it is foolish. At Evansville on the Ohio, a point of the river nearest to us, two worthy delegates on this extraordinary mission are said to have commenced their operations about the beginning of August.—We now number about 300, where 18 months ago there were two families. We have good health, and good spirits; good water, good land, and good provisions. We have probably suffered less by sickness than any settlement under similar circumstances, certainly less than any settlement under my observation, and this we may fairly attribute to the superior salubrity of the situation; my own family has enjoyed extraordinary health, and I have not been confined in the house by sickness of any kind since I entered the Territory. We have only had three fatal cases and those were of persons who came to us labouring under disease, either constitutional or occasioned by the journey, and who died soon after their arrival.

Some particulars of the delays and difficulties attending the publication of my letters in this country.—Receiving the approbation of liberal men, I pay little regard to the censure of others: in fact their sinister proceedings give currency to truth, which is "mighty and will eventually prevail."

Sentiments have been imputed to me of hostility to my native country; how unjustly every faculty of my soul bears witness! I hate her enemies it is true as I hate the enemies of mankind, the enemies of every country; and those are the persons who are aggrieved by our simple and successful effort to emancipate ourselves, perceiving that the evil they foster is beginning to work its own remedy.

And because I deprecate the formalities practised among mankind *in lieu* of religion, I am charged with being a foe to religion.—It is the bond which cements the soul of man with the Supreme intelligence "in whom we live, and move and have our being." It is the love of God increasing our good will to each other; it is a principle of action aiding the moral sense, a divine sentiment impelling us to those pursuits which reason approves, and restraining us from evil.—If I have written in disparagement of this principle, I plead guilty.—I am amused by the disappointment of the readers of these letters. They are looking for the Atheistical sentiments and wild democratical opinions which had stultified the self appointed censors of the press, and they are not to be found! of course say they "much has been suppressed;" whereas the letters are published precisely as I wrote them, omitting private matter, and retaining what I hoped might prove useful or instructive.

There is however an error of some importance; and I wish that a correction of it would accompany the publication.—In my estimate of the expenses of cultivating these Prairies, I have not made sufficient allowance *of time;* for the innumerable delays which attend a new establishment in a new country, I could now add to the Dr. side a year of preparation, which will of course make a material deduction from the profits at the commencement of the undertaking.

I remain, dear sir,

Sincerely yours,

M. BIRKBECK.

The bill for the erection of a State Capitol was this day on a third reading, in the House of Representatives, and on the motion of Mr. Coleman, to postpone the further consideration of the bill till this day six weeks, the yeas and nays were taken—Yeas 31—Nays 60: so the postponement was not agreed to. Mr. Forward then moved the postponement for one week—and decided in the negative.

The question was then taken on the passage of the bill, and decided in the the affirmative—Yeas 60—Nays 32.

UNITED STATES' FORTIFICATIONS.

The National Intelligencer contains a report from the War Department relative to the army and fortifications of the United States.

By this report it appears that the work contemplated for Old Point Comfort, Chesapeake Bay, is to mount 250 cannon. These works are estimated to cost 3,000,000 dolls.

The fortification at the Pea Patch, in Delaware Bay, to mount 120 cannon, to cost 300,000 dolls.

"To complete the defence of this pass, it will be necessary to occupy with works the shoals of the adjacent Delaware and New Jersey shores, to aid the whole, two steam batteries will be requisite."

"*New York Harbor*—The only work now progressing in this harbor, is a castellated tower building at the Narrows, upon Hendrick's Reef, it will mount 96 cannon, and will cost 275,000 dolls. it is more than half finished, and can be completed in the year 1819. The other positions which must of necessity be occupied, to complete the defence of New York, are 1st, Sandy Hook, 2d. Staten Island. 3d. West end of Long Island, 4th Brooklyn Heights, and 5th Frog Point near the Sound."

Lake Champlain—The works to be erected are at Rouse's Point and Island Points. These works being contemplated to withstand a siege, will mount nearly 800 pieces of cannon.

The government have given orders to suspend the works at Rouse's Point, until the line between the United States & Lower Canada shall be completed.

From the Washington City Gaz. of December 9.

The Circuit Court for the county of Washington commenced its sittings, in the Capitol, on Monday the 28th of December last, and may be expected to adjourn about the middle of the present month. Upwards of 1200 new writs were issued for the present term.

The Supreme Court will convene in this city, as usual, in the first week of February.

At a meeting of the Directors of the Bank of the United States, on the 6th instant, *William Jones* was unanimously re-elected President of that institution.

Chillicothe, January 8.

COUNTERFEITERS.

At Lancaster, on Friday last some of the citizens received information that a party of counterfeiters were in that town, having a quantity of spurious notes in their possession. It was soon found out that they were to be at M'Intire's tavern, about 14 miles on the road to Chilicothe, that night—and arrangements were made for their apprehension. According to the plan agreed on, the party, 13 in number, surrounded the house about 9 o'clock at night, when five of the company rushed up stairs and found four, whom they bound and searched;—the party found two bundles of spurious bills, containing

$250 Miami Exporting Co. 50's & 20's.
1660 Farmers Bank of Bucks c'ty. 10's.
920 Bank of Columbia, 5's.
140 Marine Bank of Baltimore, 5's.

Some counterfeit money was found in their pockets, and between 250 and 300 dollars in the bar, which were claimed by the landlord—and about 25 dollars in counterfeit coin, principally dollars. M'Intire, the landlord, and one of the gang named Seely, have been committed to jail. Hamilton, another of the band, was discharged for want of legal evidence against him,—and the fourth jumped out of the window and made his escape—who is described to be a tall man, sandy complexion, grey eyes, about 30 years of age, and has a wound in his side, occasioned by a dirk.

SPECIE.

A large amount of specie was landed here a few days ago from the U. States' Branch Bank at Louisville, destined for Philadelphia.—Its departure from Louisville in the night is said to have excited some sensations there, in addition to the unpleasant feelings which the event itself, under any circumstances, is calculated to produce. The long expected draft from this office we presume will accompany it hence.—*Cincinnati Gaz.*

Washington, January 7.

After a long calm, a light breeze yesterday ruffled the surface of the House of Representatives, the precurser only of a more serious agitation of one or two interesting questions, which will in all probability be discussed in the course of the next week.

The topic which was the subject of most of the Debate of yesterday, was the constitutionality, on the one hand, and propriety, on the other, of the construction, by order of the Executive, of Military Roads, and of the payment of the expences thereof out of the fund annually appropriated under the head of Contingent Expences for the Army. No question was taken involving a decision on this or any other point.

The most interesting feature of the Debate which is to take place is, probably, the discussion (which, notice has been given, will be brought on, whilst in committee of the whole on this bill) respecting the Seminole war, and particularly respecting the conduct of the Commanding General. This intention was distinctly announced by Mr. *Mercer*, and the shape in which the question will be presented, will be that of a proposition to appropriate for the payment of one, only, instead of two Major Generals in the army.

The appointment of John Graham, Esq. as minister to the Portuguese court, at Brazil, in South America, has been confirmed by the Senate. Mr. Graham is expected to set out immediately. The present minister, Mr. Sumpter, it is said, has requested leave to return to the U. States.—*Wash. City Gaz.*

The communications of the State Treasurer with regard to the Farmers' Bank of Lancaster, which appear under the legislative head this day, have created great sensation in both Houses of Assembly. The general opinion is, that the Bank will be divested of its charter. This morning a bill for that purpose was reported to the Senate by the committee on Banks.—*Har. Chron.*

Shocking Occurrence.—A letter to the editor of the Richmond Enquirer, details the circumstances of one of the most shocking instances of suicide we have ever heard of; it is stated that Captain Robert Houston, of the U. States' army had left Lexington (in Rockingham County, Va.) for Carlisle, Pa. in compliance of military orders; but had only proceeded to Staunton, 30 miles on his way, when a singular notion struck him of returning to Lexington. Whilst on his return, in a sudden fit of phrenzy, he jumped out of the stage, drew his knife, deliberately ripped himself up with it, and tore his bowels from their seat! He also endeavoured to cut his throat from ear to ear but from loss of blood he failed in the attempt; he however cut his wrist in a horrid manner. All this was done in such a short time, that it was impossible for the passengers in the stage to hinder his dreadful purpose. It is said that he was prevented last summer from committing suicide. The cause of his derangement is not known.

London, Nov. 15.—Upwards of 5000 French women, of all ages and descriptions, followed the British army to Calais;—Such as were unmarried were sent back, and numerous scenes of distress & lamentation were occasioned by the separations. A young and well educated female, who had an amour with one of our soldiers, was discovered in a male attire, and ordered to be reconducted to her family; but at the last date her grief and agony had deprived her of her reason.

CONGRESSIONAL.

IN SENATE.

The motion made by Mr. *Johnston*, on the 9th ultimo, to call on the Executive for the correspondence respecting the cession of the Floridas, was this day withdrawn, by him, on being called up, his object having been attained by the communications subsequently made by the President.

The Senate then resumed the consideration of the bill providing for the erection of a monument over the remains of General George Washington, where they now lie.

Mr. *Barbour* moved that the bill be recommitted, with instructions to report a bill appropriating money for the erection of an Equestrian statue of General Washington in conformity with the resolution of Congress of 1783.

[This resolution was passed on the 7th of August, 1783, and directs substantially that an Equestrian statue of bronze be erected at the seat of government; that the general be represented in a Roman dress, holding a truncheon in his right hand, his head encircled with a laurel wreath; that the pedestal be of marble on which to be represented in relief the following principal events of the war in which General W. commanded in person, namely, the evacuation of Boston; the capture of the Hessians at Trenton; the battle of Princeton; the action at Monmouth, and the surrender of York. The resolution directed also the inscriptions; that it shall be executed by the best artist, &c.]

The motion produced a short debate, and was finally decided in the affirmative, as follows:

YEAS—Messrs. Barbour, Burhill, Crittenden, Daggett, Eaton, Edwards, Forsyth, Fromentin, Gaillard, Goldsborough, Horsey, Hunter, Johnston, King, Leake, Macon, Mellen, Morril, Otis, Palmer, Sanford, Stokes, Storer, Tait, Tolbert, Taylor, Thomas, Tichenor, Dyke, Williams, of Tennessee,—30.

NAYS—Messrs. Lacock, Morrow, Noble, Roberts, Ruggles, Smith,—6.

The President communicated three several reports from the Secretary of the Navy, comprehending contracts with the Navy Commissioners, the names and salaries of Clerks in that office and the expenditure and application of monies in that department.

HOUSE OF REPRESENTATIVES.

On motion of Mr. *Herbert*,

Resolved, That the Secretary of the Treasury be instructed to report to this House a statement of the debts, credits, and funds of the incorporated Banks of the District of Columbia, required by the 19th section of the act of Congress entitled 'an act to incorporate the subscribers to certain banks in the District of Columbia, and to prevent the circulation of the notes of unincorporated associations within the said District.'

On motion of Mr. *Floyd*,

Resolved, That the committee on the Judiciary be instructed to enquire into the expediency of creating a law to define and punish piracies and felonies committed on the high seas, and offences against the law of nations.

On motion of Mr. *Hendricks*, the committee on the post office and post roads were instructed to enquire into the expediency of establishing a post route in the state of Indiana, from Lexington to Vernon.

The Speaker laid before the House a letter from the Secretary of State, transmitting a list of persons, who have obtained patents in the past year.

The House then again resumed, in committee of the whole, Mr. *Hugh Nelson* in the chair, the bill making appropriation for the military establishment for the year 1819.

The discussion of a particular provision of this bill, commenced yesterday, was resumed, and continued for some time, all which will be speedily noticed.

The committee did not get through the bill, before it rose, and obtained leave to sit again.

On motion of Mr. *Mercer*, it was

Resolved, That the Secretary of War be directed to include in the report of the strength of the army, called for by the resolution of yesterday, the amount in value, if any, of the extra compensation, in subsistence, clothing or pay, allowed the troops for extra labor, during the year ending on the 30th October last, in fatigue duties, distinguishing that which has been bestowed in compensation for labour on roads.

Mr. *Mercer* then laid on the table the following resolution:

Resolved, That the committee on Military affairs be instructed to report to this house, a bill to reduce to one the number of Major Generals of the army of the U. States.

The House then again resolved itself into a committee of the whole, Mr *H. Nelson* in the chair, on the bill making appropriations for the military establishment for the year 1819. The committee proceeded in filling up the blanks of the bill, receiving from Mr. Smith, of Md. chairman of the committee of ways and means, explanations of the different appropriations which he moved to insert in the bill. Having gone through the bill,

The committe next took up the bill "concerning the military establishment of the United States."

[The first section of this bill provides that, in addition to the present officers of the corps of Engineers, that corps shall consist of one brigadier General, one lieutenant Colonel, two Majors, two Captains, four first and four second Lieutenants, to receive the same pay and emoluments as officers of the same grade in the corps of ordinance.]

Some debate took place on this provision, commenced by some enquiries from Mr. Storrs as to the necessity of the proposed increase of the corps of Engineers, &c. who was replied to at length by Mr. Johnston, of Kentucky. Some other gentleman entered into the discussion, who will be particularly noticed hereafter.

Before the committee had gone thro' the bill, it agreed, on the motion of Mr. Basett, and after some discussion of the question, to rise and report progress.

The committee rose accordingly, and reported the appropriation bill as it had been filled up and amended, and obtained leave to sit again on the unfinished bill.

The House then concurred in all the amendments to the appropriation bill, except that which appropriates ten thousand dollars for extra pay for soldiers employed in the construction and repair of military roads.

On concurring in this appropriation a debate took place which continued until a late hour, and in which Messrs. Pitkin, Storrs, Mercer, Smith of Md. Mills, Lowndes Tucker of Va. and Poindexter took part.

Before deciding the question, and after once refusing to lay the bill on the table, and rejecting two or three different motions to adjourn.

The bill was laid on the table; and the House adjourned to Monday.

☞ We have received the communication of the Managers of the Sunday School Society, inclosing their report of the proceedings of the last year, for publication. We have not room for it in this paper, but will attend to it in our next.

PROPOSALS will be received by any one of the Managers of the Washington and Pittsburgh Turnpike Road Company, until Tuesday the 16th of February next, for making about seven miles of the road, or sections of it, beginning at the west end of the Monongahela Bridge, and proceeding on to Cowan's Bridge over Chartiers.

Stockholders in the above mentioned Company are hereby required to pay Five Dollars on each share of stock by them held, on the 16th day of February next, it being the second instalment. Members of the Company living in Washington county will pay their instalment to Mr. *George Baird*, Treasurer, in Washington: those in Allegheny county will pay to Col. *John Irvin*, who is appointed Treasurer for the Company in said county.

An abstract of the law authorising the Company, &c.

"Sec. 7th. And be it further enacted by the authority aforesaid, That if any Stockholder, whether original subscriber or assignee, after thirty days notice, in one of the public newspapers printed in the city of Pittsburgh and borough of Washington, respectively, of the time and place appointed for the payment of any portion or instalment of said capital stock, in order to carry on the work, shall neglect to pay such proportion, at the place appointed, for the space of sixty days after the time appointed for the payment thereof, every such Stockholder shall, in addition to the instalment so called for, pay at the rate of five per centum per month, for every delay of such payment," &c.

To Tanner's Distillers, & Farmers.

THE subscriber assignee of JARED OLD'S PATENTIRON MILL for Grinding Bark, Corn and Cobb, &c. for the States of Ohio, Kentucky and Tennessee, informs the public that they are made and kept for sale by Mr. George Sutton who is sole agent in Pittsburgh to sell Mills in those states, their utility in grinding bark is well known and established to be the best in use. To Distillers they answer a valuable purpose to shell corn and grind the cobb, and by distilling the cobb it is found to make a saving of about one fifth of this method.—To Farmers, to grind feed for cattle, the mill will crack nearly all the corn and grind the cobb quite fine—There are now a considerable number of those mills in use for that purpose,and are highly approved of—Distillers and Farmers in the above states are solicited to make trial of them.—I will warrant them to answer the purpose as described.

Orders for mills will be attended to by Mr. George Sutton, where they can only be had in Pittsburgh, and will be by him forwarded.

For the information of the public I give this

NOTICE.

That all mills, sold in the above states by agent of Luther Gale, is an infringement on my right nor has there any of Gales's mills been sold or used in the western country for grinding bark to my knowledge. Jared Olds' improvement consists of an Iron hopper cast solid on the cylinder or tube and cogs or sharp pointed teeth placed in rows on the inside of the mill. I therefore forbid all persons from making, using or selling mills of the above description in Ohio, Kentucky nd Tennessee, without authority from myself r Alvin Bates and our agents, as all persons found violating said patent, may rest assured that sooner or later they will pay us for our right, if there is law and justice to recover it

Valuable Estate with Merchant Mills, for Sale.

THE subscriber offers for Sale FIVE HUNDRED ACRES OF LAND, adjoining Noblestown, situated on Robinson's run in Fayette township, Allegheny county, Pa. twelve miles from Pittsburgh; on which, there are improvements equal to any in the western country, consisting of a merchant Grist MILL, SAW-MILL and CARDING Machinery, all lately rebuilt anew and in complete order, about 200 acres cleared, and under good fence, of which a sufficient proportion is bottom and good meadow—a large orchard of choice fruit of different kinds. There are on different parts of the tract, two large, well finished and convenient square log houses, one of which has an additional building of stone, with two convenient rooms. There are stables, a barn and other out houses This tract is well watered, and can all be cultivated. It is susceptible of division, and will be divided to suit purchasers. The Mills, one dwelling house with from fifty to two hundred acres can be laid off in one tract, and the balance will be sold altogether or divided to suit purchasers. For a farther description and terms of sale, apply to the subscriber, on the premises, or to John McDonald, esq. Pittsburgh.

Writing School.

G. & B. ELY respectfully inform the inhabitants of this city and its vicinity that they have opened a WRITING SCHOOL, at the corner of Market street and Diamond Alley, where the art is systematically taught with great success. Parents who feel interested in the education of their children and others who are anxious of becoming acquainted with this useful art are invited to call at their School room, and examine specimens of improvement which pupils have made in this place—likewise specimens written by the professors.

They are happy of having this opportunity for expressing their cordial thanks to those who have already had the liberality to patronize them in their laudable undertakings; are confident, that there are none who are not perfectly satisfied with the progress which their children have made. They are again invited to cherish an art of such utility.

JOSEPH HILL, & Co.

Wholesale and Retail Druggists, Market street, between Fourth street and the Diamond.

Pittsburgh, November 10.

The most VALUABLE PROPERTY on the West side of the Mountains offered

FOR SALE.

Plumpsock Iron Works.

WITH about 350 acres of land belonging thereto, will be offered for sale by public vendue, if not previously sold at private sale, on Tuesday, the 18th day of August next, at the Court House, in the the borough of Uniontown. This establishment consists of a forge, rolling mill, grist and saw mills. Also, a large brick dwelling house, furnished in a handsome style, with many other dwellings for the accommodation of workmen, and extensive stabling. It is situate in Fayette county, state of Pennsylvania, in the midst of a highly cultivated country on the state road, nine miles east of Brownsville, on the Monongahela river, and the like distance of Connellsville on the Youghiogheny river, five miles northwest of Uniontown, and thirty nine from the city of Pittsburgh. Bar iron is made in this forge by rolling instead of hammering, of a superior quality. Stone coal is the only fuel used in making it, an inexhaustible pit of which is within one hundred yards of the forge. Three men with a horse and cart are sufficient to raise, coke and haul to the forge all the coal necessary for keeping the works in full operation. They are in good order, the machinery almost new. This property is perhaps the most valuable of its kind in the United States, and by suitable attention, it is believed, may be made the most profitable in its operations.

There will be sold also, at the same time and place, the following

HOUSES AND LOTS,

situate in the borough of Union, to wit:

1. The corner house and lot of ground situate on the north side of Elbow street, immediately east of the Court House, No. 20, being the most eligible as well as the most valuable lot of ground in town.

2. That large House and lot of ground No. 3, and part of the adjoining lot, on the west or the north side of Elbow street, in the occupancy of Cuthbert Wiggins as a tavern stand, fronting on said street about one hundred and thirteen feet.

Doctor Van-sweitan's

CELEBRATED

Anti-Bilious Pills,

OF a quality superior to any thing of the kind ever offered as a General Medicine in this country, now faithfully prepared from a Receipe of the justly celebrated Doctor Van Sweitan, who, from a long residence in the West India Islands, has been enabled to favor the world with the most complete method of curing the Bilious diseases of the warm climates.

THIS extraordinary Medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to Mercurial nostrums so frequently recommended by the name of Anti-Bilious pills. The extraordinary powers of this medicine as a solvent and evacuant of Bile is without example, never producing debility or injuring the tone in the smallest degree, of the most delicate child or weakly female. The Bilious Headache so much complained of in this country and in the neighborhood of rivers, is often removed by a single dose, which to a strong man is only five pills and to a weakly woman three. The same dose will generally remove the most excruciating pains of the Cholic, by causing the bile to pass downwards in the course of an hour or two.

In Phthisical cases, where the laborious breathing and great oppression, with faintings, are first sinking the patient to the brink of the grave, a few pills, one taken every hour, with Fennel or Peppermint tea, will often enable the patient to walk about in a few hours.

The Dysentery, Croup and Summer complaint of children, are soon relieved by a few doses—a single pill to a child of five years old, and the dose increased according to their strength and age. A single pill taken every fourth hour with a cup of Flax-seed tea, will cure the pleurisy, promote expectoration and relieve Coughs and colds

Two or three pills taken an hour before dinner and repeated every third day, will effectually remove those diseases arising from Flatulence and Indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

In Consumptive cases and diseases of the Liver, no medicine ever yet discovered has been known to perform such cures—two pills taken every third morning will be found sufficient, unless costiveness prevails, in which case the dose must be increased according to the strength or constitution.

Two pills taken at bed-time, with a cup of Pennyroyal tea, and repeated every second night will effectually remove Rheumatic pains wherever situated.

A supply of the above Pills For Sale by

JOSEPH HILL & CO.
